SHELVING SYSTEMS

The SHELVIT shelving system is one of the most popular DIY shelving systems in Australia. The system is basically comprised of stripping, brackets, shelf rests and shelves.

STRIPPING.

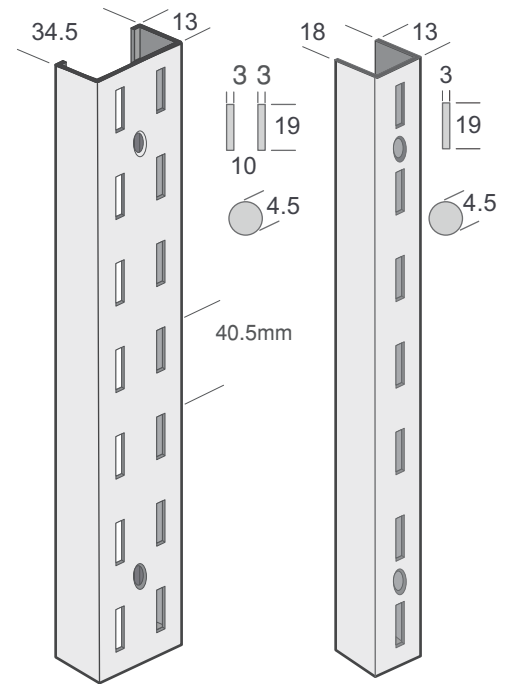

SHELVIT stripping is manufactured from roll-formed steel, is punched in either single or double slot and is pre-cut to the most popular market sizes.

STANDARD BRACKETS.

SHELVIT brackets are made from high tensile steel and incorporate unique self-locking bracket lugs which hold the brackets firmly in the stripping while minimising the lateral shelf movement. The brackets are made using a 40.5mm pitch (distance between lugs), which is the most common pitch used in Australia. A variety of standard sizes ensures that they are suitable for most decors.
